SUMMARY

Results-driven and adaptable professional with experience in customer service, e-commerce operations, technical support, AI-driven automation, and data management. Skilled in handling customer concerns across phone, chat, and email while consistently meeting performance and quality targets. Experienced in supporting Shopify-based e-commerce workflows, campaign operations, data reporting, and process optimization. Recognized for strong communication, problem-solving, attention to detail, and the ability to collaborate effectively across teams in fast-paced environments.

SKILLS

- Customer Service (Phone, Chat, Email)
- AI Automation & Workflow Optimization
- Digital Marketing for E-commerce
- TikTok Shop/Shopify Support
- Data Entry
- Communication Skills

PROFESSIONAL EXPERIENCE

OTEX | E-commerce Executive Assistant | Part time July 2026 - September 2026

- Supported text-to-buy and conversational sales operations by coordinating campaign setups, managing shopper data imports, and collaborating with brand clients and internal teams on SMS checkout rollouts.
- Monitored AI-driven cart recovery and post-purchase upsell campaigns, prepared performance reports, and documented best practices for Shopify and Klaviyo integrations.

TaskUs | Customer Service Representative July 2025 - July 2026

- Handled over 35+ cases and exceeding productivity targets while maintaining 100% Quality Assurance scores and delivering exceptional customer service across multiple support channels such as live chat and voice.
- Resolved complex concerns related to payments, account management, delivery exceptions, and technical issues while consistently meeting service-level agreements (SLAs). Demonstrated strong problem-solving, communication, and customer relationship management skills to deliver positive customer experiences and drive customer satisfaction.

CRGI Labs | Data Acquisition & Researcher | Project-based January 2025 - July 2025

- Supported Corgi Labs' AI-powered fraud prevention and payment optimization platform, helping e-commerce clients reduce chargebacks and false declines while increasing payment acceptance rates.
- Collaborated with merchants to implement Corgi's analytics and rule-engine tools across Stripe and Shopify, translating fraud and payment data into actionable workflows that improved checkout conversion and revenue recovery.

VXI | Customer Technical Support Associate

August 2024 - December 2024

- Served as the primary point of contact for residential customers, providing comprehensive support for billing inquiries, service repairs, account management, and retention concerns.
- Recognized as a top-performing Customer Service Representative (CSR) with the highest customer satisfaction (CSAT) scores for 5 consecutive months; consistently exceeded monthly KPI targets while maintaining exceptional service quality, resolving complex customer issues efficiently, and contributing to improved team performance metrics.

Maple General Merchandising | Admin Assistant (Project-Based)

January 2024 - August 2024

- Supported cross-functional initiatives between sales, operations, and brand-partner teams by preparing weekly order and inventory reports, updating marketplace listings with new SKUs and pricing, and helping streamline communication workflows that improved response times for retailer inquiries and fulfillment issues.
- Assisted in the rollout of internal process improvements for Mable's B2B platform by organizing training materials for new brand partners, documenting standard operating procedures for order management and payment terms (including Net 30 marketplace flows), and ensuring data accuracy across product discovery, ordering, and distribution workflows.

E-commerce Customer Support Specialist — Freelance/Contract

May 2022 - January 2024

- Supported cross-functional e-commerce operations by coordinating with sales, fulfillment, and customer service teams, preparing weekly order and inventory reports, updating marketplace product listings with new SKUs and pricing, and following up on delayed orders, returns, and fulfillment issues.
- Assisted with day-to-day order management by reviewing customer orders, verifying product availability, coordinating with fulfillment teams, and maintaining accurate order information across e-commerce platforms and internal tracking systems.
- Supported marketplace operations by updating product descriptions, pricing, inventory quantities, and SKU information while ensuring product listings remained accurate and consistent across multiple sales channels.
